Election/Restriction

Restriction to one of the following inventions is required under PCT Rule 13.1:

- I. Claims 1-24, and 28, drawn to a method for inducing a psoriasis-like syndrome in an animal by transferring a purified CD45Rb positive T cell population, an immunodeficient mouse induced to exhibit a psoriasis-like syndrome, and a method for screening a candidate therapy for efficacy in treatment of psoriasis.
- II. Claims 25-27, drawn to a method treating a patient suffering from psoriasis using antibody.

This application Group II contains claims directed to more than one species of the generic invention. The species are: interferon gamma, interleukin 12, E-selectin, P-selectin, CD3 or alphaE integrin subunit. These are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1. Applicant is required to select one species for examination practice.

The inventions listed as Groups I-II do not relate to a single general inventive concept under PCT Rule 13.2 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Group I encompasses a method of making an animal model, an animal model, and the first method of using the animal model for screening a candidate therapy for efficacy in treatment of psoriasis. Group II is directed to a method of treating a patient suffering from psoriasis by administering to the patient an antibody that require different special technical features other than the technique used in Group I. Thus, Groups I and II lack a common special technical feature. Further, 37 CFR 1.475 does not provide for multiple independent products, methods of manufacture and methods of use (37 CFR 1.475(d)).

Art Unit: 1632

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).)

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
